

BIG MOBS OF MINERS
HELD IN BY MILITIA.SOLDIERS PREVENT RIOTS IN
ILLINOIS.

Comparative Quiet Prevails at La Salle and Centralia—Leaders of the Mob Held to Answer—The General Situation—Many Decatur Miners Quit.

LA SALLE, Ill., May 26.—Six companies of armed soldiers are encamped at the outskirts of this town. They arrived early yesterday and stood in readiness to put down an uprising of lawless strikers all day, and as the sun went down the soldiers and every citizen in the town outside the strikers was in a state of nervous anxiety for fear an uprising might occur. The arrival of the militia was a great surprise to every one in the town save Mayor Matthiessen and Sheriff Taylor. It not only surprised the strikers, but greatly angered many of them, especially the Slavs. A mass meeting of strikers was called at the Turner hall at 9 o'clock in the morning. Some of the more prominent strikers indulged in the most violent incendiary and anarchistic speeches and did everything in their power to incite their fellows to riot.

Mayor Matthiessen tried to explain to the rebellious element that he had not the authority to bring back the prisoners. They had been arrested by county officials and could only be released by due process of law. He then advised the strikers to quietly disperse. Mayor Matthiessen addressed the meeting, but his speech seemed rather to irritate than quiet the incendiary element, and as he left the hall they howled for the release of the two men imprisoned in the county jail at Ottawa. The meeting finally ended quietly.

The local authorities have not been able to learn if any of the strikers who indulged in the riot Thursday evening were killed. Deputy Sheriff Brennan of Ottawa, who took part in the conflict, said that he saw several of the rioters fall and their fellows carrying them away. Sheriff Taylor is greatly improved and sent word from Ottawa that he would come over here. Deputies Hoolihan and Dwyer, who were shot in the groin and thigh, are out of danger.

Five companies of the militia arrived here about 9 o'clock in the morning in command of Col. Fred Bennett of Joliet on the Rock Island road. Late in the afternoon another company arrived, making six in all. These forces are of the Third regiment of Illinois National Guard. The soldiers pitched camp on a plateau about a quarter of a mile east of the shaft where the riot occurred.

A fracas occurred in the north part of the city, when a number of strikers severely beat and kicked a Polish miner named Birkewski, whom they accused of being a spy. The man is likely to die from the effects of his injuries.

A freight train on the Illinois Central railroad was derailed a few miles south of this city, near the Oglesby mine at 10 o'clock last night. None were injured, though the train was wrecked.

A committee of the strikers from local assembly No. 348, Knights of Labor, made a statement denying that the strikers were responsible for the riot at La Salle mine. They blame the deputies. The committee denies that any of the strikers made use of firearms, but declares that the deputies shot each other in their fight.

TO TAKE OUT PANA MEN.

Indiana Miners Take a Big Four Train and Move in Force.

TERRE HAUTE, Ind., May 26.—When a long west-bound freight train on the Big Four pulled in at 9 o'clock last night the tops of the box cars were crowded with miners. They were on their way from Coal Bluffs to Pana, Ill., where, they said, 4,000 Illinois miners were assembled to try and persuade the men in the mines to join the strike. The train was side-tracked and the engine run to a safe distance. The officials of the road have called on the chief of police for protection. The men were quiet, did no cheering, and only a few of them left the cars when they came to a stop. One of their leaders said that they had received a request from the Illinois strikers to come over and camp out at Pana to get the men to leave off work there. There is some talk among the men of boarding the New York through passenger train which passes at 1:45 this morning. Chief Meagher has sent for Sheriff Stout and Mayor Ross.

At 11 o'clock it was reported that several hundred are on their way here from Clay county, as many from the south on the Evansville and Terre Haute road, and more from Clinton to the north on the Chicago and Eastern Illinois.

BRAZIL, Ind., May 26.—The Chicago & Indiana Coal road run a special train to Coal Bluff yesterday afternoon carrying hundreds of miners to the miners' mass-meeting to determine whether to go to Pana, Ill., and order the men out who are working in the mines there. The scene at Pana today will be one of the most exciting ever seen in that city, as 25,000 miners will congregate there to influence those working to stop. Mr. McCoy, superintendent of the Monarch Sewer Pipe company, said that he was going to place men to work in the company's mine Monday and call on the sheriff for protection. This is

thought to be a signal for an outburst of trouble among the strikers and is watched with much apprehension.

PANA, Ill., May 26.—The situation remains unchanged here except that the force of deputy sheriffs was increased to 300 yesterday. A lot of rifles were received from Springfield and St. Louis. The mines are all running full force and will continue so long as they are not molested.

RIOTERS HELD FOR THEIR ACTS.

Twenty of the Leaders at Centralia Must Answer—Troops Arrive.

CENTRALIA, Ill., May 26.—The seventy-eight rioting coal miners from Duquoin arrested here by Sheriff Helm and his deputies were arraigned before Justice Andrews late last evening on charges of conspiracy, trespass and intimidation and held to the grand jury in bonds ranging from \$100 to \$500 each. Twenty, the number designated as leaders of Thursday's mob, are required to give good security for their appearance when the grand jury wants them. The other miners were permitted to go on their own recognizance.

With three full companies of heavily armed state soldiers closely guarding the starved-looking miners and everybody momentarily expecting an outbreak of some kind this town passed one of the most exciting days in its history. As fast as the soldiers arrived they went into camp at the army. N. B. Morrison, president of the Olin Coal company, whose mines at Olin were saved from destruction Thursday by the prompt action of Sheriff Helm, came down to urge that strict punishment be dealt out to the arrested men. The city, the coal companies and the railroad had a great lot of witnesses here.

At 3 o'clock last night another assault was made by strikers on the office of the Big Four company. There happened, however, to be half a dozen deputies guarding the premises, and they quickly scattered the gang by taking a shot at them. Sheriff Helm received a telegram in the evening telling him that attempts had been made by strikers during the day to burn three or four bridges on the Cairo Short Line, between Duquoin and Carbondale. Everything is quiet here now.

MANY DECATUR MINERS QUIT.

They Are Persuaded to Stop Work Without Violence Being Offered.

DECATUR, Ill., May 26.—The police were on the alert since morning, but the day passed without any violence. No miners were at work, being persuaded by the strikers to stay away. The union miners met last night and this morning were up at 5:30 o'clock to persuade men who wanted to work to keep away. There were fifty men ready to go down; all but eighteen went away. In the evening when the eighteen men came out hot-headed strikers were at the shaft to offer violence, but the police protected the men. Sheriff Perl told the men who wanted to work that he would see that they had prompt protection.

STANTON, Ill., May 26.—The officials of the Consolidated Coal company have decided to close their mines at this place until the strike is declared off.

MOLINE, Ill., May 26.—Moline is threatened with a coal famine. Nearly all factories have laid in supplies of coal.

DANVILLE, Ill., May 26.—Mike Kelly, proprietor of the mines at Keelyville, tried to get a load of coal yesterday from his mines to the hospital. While coming through Southtown the women of the village stopped the teamster and made him unload. The striking miners will go to Glenburn today to force the men who are keeping the mines free of water and watching the entries out.

ALBION, Ill., May 26.—The Gilchrist and Cable miners joined the strike yesterday. All are quiet.

MARCH TO TAKE OUT MINERS.

Ohio and Iowa Strikers Move on Adjoining Fields to Stop Work.

ALLIANCE, O., May 26.—Two hundred striking coal miners at Salineville marched across country to Bergholz, fifteen miles away, and succeeded in persuading the miners to join the strike.

FORT DODGE, Ia., May 26.—The miners' strike has reached this county. Delegates from Southern Iowa arrived and called out all the miners in the county, some 600. The latter make no demands on their employers.

OTTUMWA, Iowa, May 26.—The striking miners who have been camped at Muchiknock withdrew from the field yesterday, but say they will return Monday and induce the men to go out.

HENDERSON, Ky., May 26.—Two hundred and fifty miners in the De Koven mines struck last night. The Basket Coal company's mines have resumed work with fifty non-union men.

Big Muddy Miners Taken Out.

CARTERSVILLE, Ill., May 26.—About 500 miners from Murphysboro, Muddy Valley and De Soto came here and in a body marched out to the St. Louis and Big Muddy Coal company's shaft north of town and brought the men out. No damage of any kind was done to the property. No trouble of any kind is anticipated unless Superintendent Brush persists in trying to run the mines before the strike is settled.

McBride Fears More Trouble.

COLUMBUS, Ohio, May 26.—President McBride said last night: "The strike will be the greatest in the history of the world. If a settlement is not made soon I dare not contemplate the consequences."

HILL WANTS LEAD
ON THE FREE LIST.MOVES AN AMENDMENT TO
THE BILL.

Galena Should Come In Free the New York Senator Urges—Duty on Steel and Iron Wheels Fixed At One Cent and a Quarter a Pound.

WASHINGTON, May 26.—In the senate today the duty on iron or steel wheels was fixed at one cent and a quarter a pound. Lead ore was then taken up. Hill moved to have it placed on the free list. The Aldrich amendment to substitute the McKinley tariff on shotguns for the 30 per cent ad valorem in the senate bill was laid on the table, as was also a motion to increase the rate to 45 per cent. The rate for shotguns, rifles and pistols was fixed at 30 per cent. The house rate on engraved steel plates and railway fish-plates (25 per cent ad valorem) was not changed. The rate on iron and steel rivets was increased from 25 to 30 per cent.

At 5 o'clock the senate went into executive session and 5:10 p. m. adjourned.

STATE BANK TAX TO-DAY.

Springer Gives Notice That He Will Call Up the Brawley Bill.

WASHINGTON, May 26.—At the conclusion of the morning hour in the house yesterday the house went into committee of the whole for consideration of private bills. Mr. Springer gave notice that the first thing to-day he would call up the Brawley bill for repeal of the state bank tax law. The only business transacted during the day was the passage of a bill for the relief of Thomas B. Reed, and the success of this bill seemed to be due in no small degree to the name. At 5 o'clock the committee rose and the house took a recess.

The evening session was devoted to the consideration of private bills.

Says Armor Plate Was Doctored.

WASHINGTON, May 26.—Capt. W. T. Sampson, chief of the bureau of Ordnance, navy department, appeared yesterday before the house committee investigating armor plate irregularities. In answer to questions as to the motives for frauds, Capt. Sampson said he believed the heads of the company knew nothing of the operations. The investigation adjourned until Monday.

Will March Upon La Salle.

SPRING VALLEY, Ill., May 26.—At a meeting of the miners here yesterday it was decided to march to La Salle to-day at daybreak. The committee of miners that left this city Thursday to try to get Kewanee and other places to quit have been successful. Two hundred miners of Ladd started for Sheffield yesterday thinking that the committee will not meet with success there. They passed through Coal Hollow at noon shouting and singing. A move is now on foot here to get to Morris, but a committee will be sent first.

Stand Out for Recognition.

ST. LOUIS, Mo., May 26.—Illinois mine operators and miners met here yesterday morning. That nothing was accomplished at the meeting was due to the fact that the miners insisted upon the operators recognizing their national organization and arranging a settlement with executive committee that was appointed at the Cleveland convention, and the flat refusal of the operators to deal with any one who does not directly represent their employees. There is not much likelihood of a settlement.

Troops Ready to Meet Strikers.

CHARLESTON, W. Va., May 26.—The governor yesterday wired the sheriff of Mason county to try to cope with the strikers, but if they armed or used force to call for aid. He then telegraphed the captains of Companies C and I at Huntington to hold their men in readiness to march.

Meat Trust in Kansas City.

KANSAS CITY, Mo., May 26.—As the result of a combination between the local packing houses and the retail butchers of this city the price of meat has been very materially raised.

Diamond Plate Glass Works Shut Down.

ELWOOD, Ind., May 26.—The Diamond Plate Glass factory has closed down indefinitely, throwing several hundred men out of employment.

Engineers Will Meet at Ottawa.

ST. PAUL, Minn., May 26.—The locomotive engineers decided yesterday to hold their next meeting at Ottawa.

Record Frauds Are Unearthed.

SAN FRANCISCO, May 26.—Fraud has been unearthed in the hall of records in this city which may lead to the discovery of a clever scheme to land foreign-born Chinese. The record of the health department has been interlined in several hundred instances, each attesting the birth of a Chinese. By this means foreign-born Chinese have obtained birth certificates which they think will entitle them to residence under the Geary act. These entries are dated as far back as 1887.

McCarthy Asks for Funds.

LONDON, May 26.—Justin McCarthy, chairman of the Irish parliamentary party, has issued an appeal to the Irish people in pursuance of a unanimous resolution of the party, declaring that without immediate and generous help they can not hope to maintain for the remainder of the session

WAITE AND THE MOB
ARE HAND IN HAND.

GOVERNOR OF COLORADO DENOUNCES THE DEPUTIES.

He "Sympathizes" With the Strikers Who Blew Eleven Non-Union Men To Pieces Yesterday and Says the Officers Must Withdraw—Quiet At Cripple Creek.

DENVER, May 26.—Governor Waite's socialism cropped out today. He declared his full sympathy with the Cripple Creek strikers who blew up a mine and killed eleven workmen yesterday. He issued a proclamation at noon ordering the deputies to return to their homes. The militia is ordered to be in readiness to proceed if there is trouble. Quiet has reigned at Cripple Creek today, there being no renewal of yesterday's battle. At 10 o'clock yesterday morning eleven men started to work in the Strong mine on Battle Mountain. Shortly afterward a large party of strikers blew up the shafthouse with powder, causing a loss of \$25,000, and then dropped 100 pounds of giant powder down the shaft, which was also exploded, killing all the inmates. The deputies have withdrawn from the field. Denver will send another trainload of hired fighters at 11 o'clock to-day. Colorado Springs will add many and Leadville will contribute 300. These forces with those already in the field will aggregate 1,100 men, who are selected for courage. With a twelve pound rifled cannon at their head they will renew the assault by noon, without, however, much prospect of dislodging the strikers, who are terribly effective in the use of giant powder and dynamite. Gov. Waite is considering the expediency of calling out the entire militia, infantry, artillery and cavalry, to capture the mercenaries imported from outside El Paso county, as the law expressly forbids such action. He favors martial law.

When the deputies are finally massed and the two forces come together a most desperate battle will be doubtless fought. Not a few believe that the town will be a smoldering mass by another sunset if the strikers be not restrained.

It is said the strikers have planted under their breastworks on Bull Hill a quantity of dynamite with the intention of blowing it up if it should be taken and occupied by the deputies. The strikers from their position on Bull Hill can view the country for miles and all passes are guarded by them. No one is permitted near enough to the seat of war to be in danger, and the streets of Cripple Creek and Victor, as well as the passes, are patrolled by miners carrying rifles and revolvers. All telephone wires are down and it is thought the telegraph wires will go soon. Deputies have been coming in quietly and it is thought an unexpected move is anticipated. The Denver deputies have taken a less exposed position and await help.

Fear an Attempt at Rescue.

OTTAWA, Ill., May 26.—The various rumors that were received here regarding the plan of the rioting miners at La Salle, in their proposed plan of attacking the county jail and liberating the prisoners, held for the row at La Salle Thursday evening, has created considerable excitement. Mayor Schoch and Chief of Police Yockey have sworn in and equipped forty men as special officers. During the afternoon 200 miners visited Split Rock shaft, owned by Dick & Gorbett at Utica, and destroyed hundreds of dollars' worth of property.

Kansas Coal Miners Go Out.

LEAVENWORTH, Kan., May 26.—There is strong probability of a general strike here. Delegations of strikers visited the mines yesterday and argued with the men as they assembled. As a result over 100 men employed at the Kansas and Texas mine refused to go to work. The miners have caught the strike spirit and there is every reason to believe they will go out.

MAON, Mo., May 26.—At Ardmore the coal miners, 500 in all, have quit work. The Kansas and Texas Coal company has called on Sheriff White for guards.

PROF. SMITH IS HEARD.

Intens. Interest Shown in the Heresy Appeal Case.

SARATOGA, N. Y., May 26.—The increased interest in the Prof. Henry Preserved Smith heresy appeal case before the general assembly of the Presbyterian church was shown yesterday by the large attendance and the close attention given every detail of the proceedings. Many speeches were made by prominent ministers. Many extolled Dr. Smith as a Christian and ripe scholar, but at the same time they looked upon his utterances and writings as antagonistic to the fundamental doctrines of the Presbyterian church. As an unusually large number of the commissioner judges desire to define their position on the Smith matter it is highly probable that it will consume the entire day's session to-day. In the morning Rev. Dr. Howard Duffield of New York, chairman of the committee on correspondence, introduced to Moderator Mutchmore and the general assembly the delegation bearing the fraternal salutations of the Baptist National May anniversary.

Santa Rosa Mine Is Sold.

RIVERSIDE, Cal., May 26.—The Santa Rosa quartz mine, located near Perris, has been sold. The mine was the property of ex-Gov. Bligsdall of Nevada

LARGE FOR THE WEEK.

In Spite of Strikes There Is a Good Volume of Trade.

NEW YORK, May 26.—R. G. Dun & Co.'s Weekly Review of Trade says: "Storms and floods, prolonged strikes and large exports of gold have done their utmost this week to give business a vacation. But wants unsatisfied during the last year, belated and much lessened, and yet greater than those of any other nation, have caused a volume of trade quite large for the season. Prices of products still tend downward without much speculation."

"It is not surprising that farmers retain wheat at present prices where they can. Corn has been stronger, notwithstanding large receipts and insignificant exports. Pork products all declined with heavy receipts, and coffee is also lower. The astonishing cheapness of wheat and cotton will affect the rapidity of the movement in the fall, and also will directly lessen the amount of money required in moving the crops."

"While the iron industry especially and many others to some extent have been restricted by scarcity of coal and coke, the number of works resuming have been greater than the number stopping from other causes. It is a waiting season, but the disposition to wait is this year much intensified."

"Failures diminish in importance, the amount of liabilities for the third week in May being only \$2,204,139, and for three weeks, \$7,836,772, of which \$3,642,687 were of manufacturing and \$3,025,007 of trading concerns. The number of failures reported this week is 183 in the United States, against 259 last year, and in Canada 28, against 14 last year, and again there are noted scarcely any of importance."

HORSE-THIEVES IN JAIL.

Oklahoma Grand Jury Indicts Thirty Members of a Noted Gang.

OKLAHOMA CITY, Okla., May 26.—Reports from Tecumseh state that more than thirty indictments for horse-stealing have been found by the grand jury. Seventeen arrests have been made. Seven of those arrested have been arraigned and pleaded guilty. The entire community is wrought up over this discovery and the breaking up of one of the most remarkable criminal organizations ever known in this country. The grand jury is still in session and twenty-five or thirty more indictments will likely be returned. Charles Patterson and a young fellow named Collins, members of the gang, have turned state's evidence.

ALLEGED CROOKEDNESS.

Charges Preferred Against the Warden of the Kansas Penitentiary.

TOPEKA, Kan., May 26.—Charges of a serious nature have been filed with the governor against Richard Chase, warden of the state penitentiary. The charges were filed and the governor asked to take steps and suspend the warden, pending hearing.

Disagreements occurred between the bookkeeper of the penitentiary, Superintendent of Coal Mine Bunn and the warden, who discharged the two. It is alleged there is crookedness in the accounting for sales of property.

Not a Counterfeit.

WASHINGTON, May 26.—R. E. Preston, the director of the mint, to-day received from a special inspector of customs at El Paso, Texas, a \$5 gold piece with a request for a decision as to its genuineness, the inspector stating that it was evidence against a party accused of passing counterfeit gold coin. Director Preston observed that the coin lacked sonority and from its genuine appearance suspected that owing to too rapid rolling of the gold strips preparatory to cutting the planchets an air bubble or blister was formed just at the spot in the strips from which the coin was cut. Mr. Preston split the coin far enough to ascertain that his diagnosis was correct. The coin will be returned with the statement that it is genuine.

Mr. Carlisle Explains It.

WASHINGTON, May 26.—In response to the complaint made by the Georgia delegation because Secretary Carlisle sold the government's World's Fair building to Chicago parties for \$3,350, and which parties ask the Atlanta exposition people to pay \$25,000 for it, the secretary says the Chicago bid was \$1,700 in excess of the officially estimated value of the building and was accepted long before any intimation had been received that the Atlanta people wanted the structure.

Arthur H. Taylor for Congress.

EVANSVILLE, Ind., May 26.—The First district democrats at Rockport renominated Arthur H. Taylor for congress. Resolutions denouncing Hill, Brice and Gorman as the Benedict Arnolds of the democrats and demanding that sugar be put on the free list were adopted. They also demand that the income tax be retained in the tariff bill as it came from the house.

Hill for Free Iron.

WASHINGTON, May 26.—Senator Hill has notified Senator Dubois that he intends to move to put lead ore on the free list and will attack the position of the senate finance committee in levying a duty of three-fourths of a cent per pound on that article.

To Succeed Wolsley.

DUBLIN, May 26.—The Freeman's Journal says that Gen. Lord Frederick Roberts, formerly commander-in-chief of the army in India, will succeed Gen. Lord Garnet Wolsley in the autumn as commander of the forces in Ireland.

COXEYITES LINGER
AROUND MADISON.RAGGED BAND WILL SUNDAY
AT WINNEQUAH.

General Wilson Says He Must Get His Force to Washington By June 20 and 580,000 Men Will Be there at That Time—He Is Not a Tramp.

MADISON, May 26.—The Coxeyites are still close to Madison. There are fifty of them here under command of General Wilson and they will camp at Winnequah over Sunday.

"We must reach a point near Washington," said "Gen." Wilson, "on or before the 20th of June, as that is the time of a great meeting. We have 580,000 men in the field with more coming. Their wishes must be heeded."

The "general" talked confidently to the Democrat's representative when he said: "We are not tramps in the common acceptance of the term. We are all working men, now out of employment. We don't beg in the common way and I assure you we are far from being plunderers."

BUTTZ IS CONVICTED.

The Senate Committee Finds Him Guilty of Attempted Bribery.

WASHINGTON, May 26.—The special committee of the senate appointed to investigate the charges of attempted bribery of senators on the part of Charles W. Buttz, the North Dakota lobbyist and ex-congressman from North Carolina, yesterday submitted a report to the senate. Buttz is found by the committee to have made the attempt at bribery, despite his denial, and Senators Hunton and Kyle are exonerated from all blame. The committee in its report says:

It appears from the testimony submitted that a certain Charles W. Buttz of North Dakota, but domiciled in Washington since December last, where he has been engaged as a lobbyist and claim agent, did, on or about April 1 of this year, at the house of Senator Hunton, in Warrenton, Va., during the absence of the senator, say to his son, Ephraim Hunton, Jr., that he would pay him a contingent fund of \$25,000 if he would, by presenting arguments as to the pending bill, induce his father, Senator Hunton, to vote against it.

It is also established by the testimony that the same Charles W. Buttz during the month of March last approached Senator Kyle of South Dakota with a proposition that \$14,000 would be paid him if he would vote against the pending tariff bill. The said Buttz, when making this proposition, also stated to Senator Kyle that the money was in the hands or control of an agent of certain bankers and capitalists of New York City, and that the money was in Washington. Senator Kyle's testimony is confirmed by that of Duncan McFarlane, clerk to the committee on education and labor.

Your committee is abundantly justified in stating the facts above recited have been established by the evidence notwithstanding the denial on the part of Charles W. Buttz, and they refer the senate to the testimony in detail in support of this finding.

HALL ON THE TARIFF.

Says the Senate Bill Will Be Passed as It Is.

WASHINGTON, May 26.—After six weeks spent in his district, Representative Hall of Missouri, one of those most in favor of the income tax feature of the tariff bill, is back and is giving his attention to the changes which the senate finance committee has wrought.

"I have gone over the senate bill carefully," said Mr. Hall, "and I find that the changes effected are of detail and not of substance. The senators have recognized the essential principle of the measure, that men shall bear the tax burden according to their wealth. With that recognized as a government principle and policy, the main change made by the senate is in limiting its operations to five years. All income taxes are temporary when first enacted, but when once in force they become permanent. England's income tax was temporary at first, but it has been continued. Germany and Italy have had the same experience. So that we can feel confident in accepting an income tax limited to five years that it will be permanently engrained on our laws before the time expires."

JULIA MARLOWE'S MARRIAGE Approaching Event Interests Janesville Folks Who Know Her.

Janesville people who admire Julia Marlowe on the stage and in society will be interested in her approaching marriage. The charming young woman is to wed Robert Taber, who was once the leading actor in her company. She says that he is one of her oldest friends. Last summer they were in Europe, and a story was

wired all over the country that they were married. This was denied, and Mr. Taber did not join Miss Marlowe's company this season. He met with indifferent success outside of Shakespearean plays, and was an absolute failure in the Coghlan company in "A Woman of No Importance." In the legitimate drama Mr. Taber has done good work. In Washington the other day Miss Marlowe said she would be married in New York in two weeks.

REEFER A NATTY GARMENT. The Alido Will Be Popular with the Gazette Readers.

There is no more admirable garment for little ones than a perfect fitting reefer, which permits free use of the arms and affords ample protection. The "Alido" (No. 578) is one of the most popular designs for everyday wear or even for more dressy purposes. This model is appropriate for cloths

and serges of any weight; and for summer wear those made of white or blue flannel, plain or figured pique, or linen duck, are very popular. Rows of stitching furnish an appropriate finish or row of silk or mohair braided are used; anchors or stars embroidered on the collar, and a coat-of-arms on the upper part of the sleeve, are very effective. The back is tight fitting,

FOURTH OF JULY WORK PUSHED Three Grand Parades Arranged and Financial Arrangements Made.

Fourth of July committees held a patriotic and enthusiastic meeting last evening at the Carrington office, and considerable progress was made in arranging details of Janesville's great day.

The finance committee reported \$878 subscribed, \$348 from the east side and \$530 from the west side. The music committee will engage the Bower City band, thus securing two large band organizations for the day and evening. There will be three grand parades, including trades displays, Coxey's army, etc., and the fire works will be from floats in the grand night parade. W. T. Vankirk reported that Judge R. S. Tutthill of Chicago had accepted an invitation to be the orator. The oration, etc., will be in court house park. Fred L. Clemons, Robert M. Bostwick, and C. S. Putnam were appointed auditing committee, and the treasurer was directed to publish a complete list of receipts and expenditures after the celebration. Many other details are yet in the hands of special committees. Another meeting of the committee will be held at the same place, Friday evening, June 1.

SON HAD NO WELCOME FOR AGED FATHER

MAN 82 YEARS OF AGE WAS SET ADRIFT.

Evansville People Witness the Display Of a Son's Coldness—Uniformed Police In Monroe—Canner In the County—Bride Played the Part of a Sharper.

There was no welcome for aged Levi Smith who arrived in Evansville from Chicago. The old gentleman is eighty-two years of age and is gradually losing his mind, but his one desire has been to get to Albany where he has another son and with whom he wanted to live till he died. On arriving at Evansville he was broken down on finding a telegram from his son saying not to come as they did not want him. He finally went to Attica to look for a home with his daughter.

Took Bride and \$40 Back Home

BIG TIME AT THE ATHLETIC BALL

Janesville Young People Among the Guests In Madison Last Night.

MADISON, May 26.—(Special Correspondence)—The Athletic Festival held in connection with the opening of the gymnasium was closed last night with the grand athletic ball. The exercises were all carried out successfully and the festival on a whole from field day, through the singing of the Messiah, the parade, the aquatic sports, the ball game and the grand ball was an event almost without parallel in the history of the institution. Large numbers of outside people were in attendance upon the festivities connected with the opening of the new gymnasium. Those from Janesville were the Misses Etta Hanchett, Nellie Blakey, Mae Bostwick, Laura McKinney, Maggie Walsh and Nellie Walsh and Mrs. Fred J. Meyer, Fred Sheldon, W. A. Jackson Al. Schaller and Frank Jackson were also among the visitors.

The field day records made this year were unusually good despite the poor condition of the track. Eight university records were broken. The only Janesville man who entered was Louis Fales who won the mile walk, making the mile in 7 min. 54 1/2 seconds. Had the track been in good condition he would undoubtedly have broken the university record which now is 7 minutes and 47 1/2 seconds. The excellent work done by Ralph Jackson in the recent "blow-out" debate in his society led to his selection by the society as one of the two closers on the semi-public debate to be held some time next December or January. He was almost the unanimous choice of the society from a class which numbers about thirty members in his society.

THE LARGEST SHOW ON EARTH.

Coming in All Its Entirety—The 23d Season of Sells Brothers Enormous United Shows.

The great out-door field of tented entertainment is now substantially occupied by Sells Brothers Big Show of the Earth. In fact the exclusive possession of many rare creatures and noted performers, they hold first place and their visit to Janesville on Saturday, June 9, is surpassingly rich in well founded promises of elaborate and enjoyable entertainment. Their Three Colossal Circuses, Fifty-Cage Menagerie, Roman Hippodrome, Races, Huge Elevated Stages, Australian Aviary, Gladiatorial Combats, a Spectacular Pilgrimage to Mecca Caravan of Trained Animals and Superb Fairland Street Parade, contain more than enough strange sights, thrilling scenes, sensational acts and glowing pageants for a whole carnival week. Nor does mere quantity banish quality from the colossal tents. Such features as educated seals and sea lions, rooster orchestra, giant kangaroos, the flock of ostriches, the hairless horse and the pair of giant hippotami are not to be found elsewhere. The coliseum contests are of the most exciting character, the performances phenomenal, and the fun epidemic. Make ready for a glorious holiday. This season the big show of the world admission reduced from 50 to 25 cents (children's price) to all.

Reduced rates on all lines of travel.

FRUIT NOT MUCH INJURED.

Grocers Get Encouraging Word From the Commission Men.

A. L. Hendricks, a Chicago commission man, was in the city today, having just come from a business trip through the south. In speaking of the vegetable and fruit outlook, and the damage done by the recent frosts, he said:

"The frost went as far south as southern Illinois and into portions of Missouri, and as a result considerable quantities of melons, beans and peas were nipped and will be set back from two to three weeks. With that exception, the recent frost did little harm and we will soon have all the early vegetables we can dispose of. The fruit was not injured to any extent. The indications are that we will be receiving tomatoes from Tennessee and Mississippi by June 1 and the crop will be the largest ever heard of. Cucumbers will also be plenty and strawberries are as numerous as in any previous year, but the quality is poor as a result of the unusual amount of wet weather, both where they are grown and in this vicinity. People may look for an abundance of everything in the fruit and vegetable line this year."

RAIN ROTS PLANTS AND FROST NIPS.

BAD FOR TOBACCO IN THIS COUNTY.

Beds Are In Bad Shape Because of the March Weather That Balm May Sandwiched In—A Few Patches Of Ground Have Been Set This Week.

Rock county's tobacco acreage will be cut down this year, whether farmers wish it or no. The stormy weather of late, with its accompanying frosts has greatly affected the plant beds for the new crop. The cold, rainy spell has caused a great deal of rotting of plants in the forward beds, while in many instances the frosts have touched the young plants even under the canvas covering. The wet weather has also prevented the preparation of the fields and the plants that are now large enough for transplanting are likely to further damage by rotting. Some growers report that from half to two thirds of their plants are already ruined. A few scattering patches have been set out though but little tobacco ground is yet prepared.

Footville Section Men Vaccinated.

FOOTVILLE, May 25.—Homer O. Taylor, of Orfordville, was here Saturday and inspected H. A. Edgerton's herd of Jerseys. The section men all went down to Roscoe and were vaccinated on Saturday. Mary Hastings, of Plymouth, was in town sewing for the past week. Samuel Cleland, of Evansville, was on his farm east of here and looked over the growing crops, on Wednesday. Frank Pepper, our energetic leaf dealer, will raise four acres of the weed for M. D. Owen this season. Abbie Parkert, of Orford, was a caller here Saturday. Much damage was done to cornfields here by the recent frosts, and together with the heavy frosts make vegetation have a drooping appearance, although it is to be hoped that small fruit has escaped. Frank Fitch, of Chicago, was entertained by F. M. Garlick the first of the week. The Footville creamery paid two cents more for the month of April than Center. William Canary's new hotel is to be dedicated next Friday evening by a dance. Fred Wood, the thriving young cobbler of Evansville, is soon to visit his sister, Mrs. F. M. Garlick. M. F. Darling, of Harvard, spent a few days of this week with friends here. Our school closes on Friday. Some of the Center boys are likely to move their trunks to this city. Look out for the wedding which now heads the list. It would look much better if, when Center boys and Footville girls go to Hanover to church, they would go to church and not drive around the creamery. Miss Edith Buck is slowly recovering from a severe illness. Webb Owen is able to be about again to the great joy of his many friends. Miss Hemmingsway is sewing at Mrs. Hawk's. Are our citizens aware that while Bert Parker was bringing in the red-horse, there was a sucker on the other end of the line. Ray Owen narrowly escaped being injured by a horse falling on his limb. Our creamery man, R. R. Carlson, together with his two assistants, are kept busy, attending to the large amount of milk which is now being brought to the creamery. The weather does not improve, much to the great joy of the hired help on the farms.

## NO NEEDLESS DELAY.

In protesting against filibustering in the senate it is not contended that the Wilson bill ought to be allowed to pass without a full disclosure of its hostility to the industries of the country. All such things should be thoroughly discussed, and the republicans would be guilty of a gross neglect of duty if they did not insist upon sufficient time for that purpose. But it does not follow that a fight is justifiable on each separate point of the different schedules. As Mr. Teller remarked the other day, "the American people are not concerned whether the little items in the bill have 20 per cent. duty placed upon them. What they are interested in is the general construction of the measure, and its relation to the governing sources of national welfare and prosperity. The conditions are such that time spent in talking about subordinate and insignificant things is time worse than squandered, because it implies delay that is a positive and costly misfortune. Let the debate be concentrated upon the vital portions of the bill, and carried forward in an earnest, energetic and straightforward manner. That is what the occasion demands of the republicans, and that is the course which will reflect most credit upon them and bring the greatest advantage to their party."

The senators on that committee doubtless meant well in deciding to make that investigation a star chamber affair, but people will talk, and many will say that it was because they feared the effect of making the testimony public concerning the relations between the sugar trust and certain democratic senators.

It is a pleasure to note that somebody still thinks well of Mr. Cleveland. The Brazilian senate proposes to decorate him with a medal. Perhaps the British parliament will feel under obligations to do likewise, after the tariff bill becomes a law.

Browne, the clown of the Coxey show, pertinently said in one of his recent comical orders to the Coxeyites: "Our force will always be measured by the fullness of our commissary." In other words, as long as there is a supply of food there will be men to eat it.

If, as the democrats argue, it is right to put a special tax on a man because he earns beyond a given sum of money, it is also right to take care of the man who earns less than that amount.

Senator Hill, having through his man Flower, vetoed all the bills passed by the New York legislature which were objectionable to him, has returned to Washington.

So scathing an arraignment as the Chicago Times contained today has not been seen in a Chicago paper since Wilbur F. Storey died. William F. Vilas was flayed to perfection.

Coxey will, it is said, lecture and Carl Browne will write a book, but what will become of the poor devils who helped them into notoriety?

When a man wishes to bribe a member of a legislative body he does not approach those he considers incorruptible, does he.

The May floods should be a warning to the democrats to prepare for the political flood that will overtake them next November.

## HENKE FINED AND HIS NETS TAKEN

The Koshkonong Fisher Gets the Worst of an Encounter With the Law.

Herman Henke feels the effects of violating the game laws. Henke is a fisherman at Lake Koshkonong. Game Warden Fernandez swooped down on him last week unawares, and captured about three hundred dollars worth of fishing tackle, including ten large fyke nets. Not satisfied with the capture and destruction of the contraband property, the game warden arrested Henke, took him to Fort Atkinson, and a village justice imposed a fine of \$150 and costs. Game Warden Fernandez was informed of the violations of the fishing laws at the lake, and his visit was for the purpose of making the capture. The nets were all set, and the warden was compelled to use grappling hooks to find them.

## Hooping Up

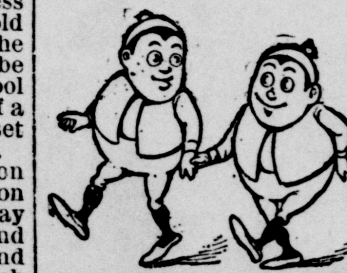

we sell at half a dollar.

## TOO MUCH WIND

Is being wasted by our competitors, who lead in everything (Fairy tales not excepted) as to the immense amount of business that they are doing—on paper mostly—by selling their wares less than cost. Merchandise that must be sold for less than the cost to manufacture must be exceeding poor or of such an antique date that any price is gain. We do not have that kind of goods in our place. We are making up many suits—busy all of the time and making some profit—the reason is that our customers get honest value for their money—any who have ever dealt with us can verify the above.

## IN HATS

We always were in advance on new things—selling so many keeps our stock bright and clean. If we would let the old timers accumulate we would gladly take 50 cents on the dollar for them. Our new straws are in and are charming. Some beauties at 50 cents. One price to all and everything marked in plain English figures. Yours, Etc., KNEFF & ALLEN.

## What Makes a Business?

Surely not a big building or a showy plate glass front. That doesn't do it by any means. We will tell you what does. The foundation of a successful business lies in its closeness to the people. Not merely to their pocket books, but to their hearts, to their implicit confidence to feel and to know that all are treated right. Not the big I and the little U. We were the first to stand between the people and all heartless monopolies. A store where you can feel welcome at all times, whether you wish to buy or not; where you buy with confidence, where you feel at perfect freedom to do as you like, go up or down, stroll here or stop there, watch the throng and busy life; meet friends and acquaintances; stay a minute or longer, an hour. Come as you please! Go as you please! Do as you please.

We like Opposition. We Defy Competition, and not a Condition can change our Position as Leaders and Promoters of Low Prices.

Stabbing at Mayflower Park Will Be Investigated in Court—But Horse Stealing Case Ended—School Teachers in Clinton—A Pretty 6 O'clock Tea.

ON Monday morning the Baldwin murder case will be taken up. The case of the state against Edwin Burt, charged with stealing old Barney Radigan's mare and colt in 1881, was given to the circuit court jury about 4:30 o'clock this afternoon, and the jury then retired to deliberate.

I MANUFACTURE all of my parlor furniture and lounges. I carry a large and complete line of frames and upholstery material of the latest styles and designs, thus giving my customers fresh goods, instead of shop-worn and old style goods. Goods standing in stores are liable to become moth-eaten, thus filling your homes with moth. I have secured the services of Joseph Hutter, who is acknowledged to be the best upholsterer ever in the city, and as good as can be secured. I can therefore give you the newest styles and best workmanship. And that is not all; I will make to order and guarantee the work, any lounge or other piece of parlor furniture at any price quoted by any dealer either here or in Chicago. You all know my word; call and see me. W. H. Ashcraft.

## HITCH AS TO BONDS FOR A NEW SCHOOL

### BOARD RUNS AGAINST A NEW PROVISION.

Legislature In 1893 Made Provision For the Raising of Funds Without the Submission of Questions to a Popular Vote—Commissioners Decide on Precautions.

There is a hitch in the issuing of bonds for a new high school.

The attention of the board has been called to Chapter 311, session laws of 1893, published April 24, 1893. The chapter applies to all cities of over 3,000 population and having a special charter. It then gives the common council power to issue bonds in an aggregate amount not to exceed five per cent of the assessed valuation of property for city hall and site, for school houses, sites and equipments, for bridges, sewers, water works, fire department, police stations, and in fact mentions nearly every item of municipal expense. Before the issue of bonds for any purpose the common council must first prepare an ordinance, setting forth the object and purpose of such issue, which ordinance must be published at least one week before action is taken by the council. This ordinance, if adopted by a three-fourths majority of the common council, becomes valid and the issue of bonds can be made.

Only a Slight Hitch Results.

It would appear by this law, that no vote is required in the High school matter. However it will be a very easy matter to right things, as the school board and common council appear a unit in the matter. It is probable that the question will be brought to the attention of the council at the next meeting.

The legal lights in the school board have been considering the effects of this chapter on the proceedings taken, and are by no means certain.

"While I do not think it absolutely necessary," remarked Clerk John Cunningham of the school board, "we will, as a precautionary measure, ask the council to publish the ordinance in the official paper, and after such publication, re-pass the ordinance, thus complying with chapter 311, and comply strictly with the law."

City Attorney McElroy could not be seen this afternoon, but it is understood he has examined the law, and thinks the course pointed out by Clerk Cunningham the proper one to take.

Janesville will have a full week of commencement exercises this year.

Beginning Monday June 11, there will be a counterpart of the exercises that mark commencement in college and university.

Monday night the high school lecture will be delivered by some distinguished Chicagoan in one of the city churches.

Tuesday night the class exercises will be held in the opera house. The class will appear in costume, but the design chosen is a deep secret. There will be class prophecy, class poem, class history and a series of orations and essays that will show what work the class has done during the four years.

Wednesday night comes the high school party, which is to be a revival of the entertainment of years gone by, when the high school party was the social event of the summer.

The regular commencement exercises come Thursday afternoon. All the class who did not take part in the class day programme will be called before the footlights on this occasion. There will be the customary essays and orations, and diplomas will be presented. The class is too large to be included in one programme, so this division was suggested. The entire class will be on the stage on each occasion.

Thursday night the Arion Ladies' Quartette, of Chicago, will sing in the opera house, Miss Lucia B. Griffin giving several readings.

The Alumni Association will have Friday for their own, their reception coming Friday night.

### The Beautiful Niagara Falls

So impressive and grand, sounding its torrents to the depths below and on through the whirlpool where wild waves lash each other in the fierce combat, is the greatest of nature's wonders. Yet there is another picture of this word cataract—a picture which horrifies the mind of he who would observe. Many there whose mind has lost its light of reason and whose body has been thrown to the mercy of a gigantic waterfall. With heartfelt sorrow we shudder for the poor unfortunates, yet in earlier years it was in their hands to prolong life and reason. The catalogue is full of nervous diseases caused by a diseased stomach and one who would be sure of a sound body and a sound mind should look well after that organ. The great regulator of the stomach, liver and kidneys is Dr. McChesney's Liver and Kidney Cure, a purely vegetable compound and a health-resolving medicine.

Your health is too precious to experiment with others. One hundred doses in one bottle. The readers of the Gazette will find this remedy on sale at one dollar (\$1.00) per bottle at all drug stores in Janesville.

Always Reaching Out.

No trouble to sell buggies of the Wisconsin Carriage Top Co's. make, as their prices are right, their goods are all right, and they are all right.

Ten Dollars Reward.

A reward of ten dollars will be paid to any person who will produce a lady's fine Dongola shoe for less than \$3 or \$3.50, that will equal in style, fit and wearing qualities our seven button wonder.

BROWN BROS. & LINCOLN.

One Thing He Wished.

A seedy looking fellow was standing in front of a grocery store looking at some vegetables. The proprietor came out and asked if there was anything he wished. "Yes, he said, 'I wish Cleveland hadn't been elected.'"

THE working pants Ziegler is selling today for 98 cents a pair cannot actually be bought for less than \$1.25 to \$2.00 any other place in the city.

## PRaise THE SHAW FOR MANY MERITS.

FAMOUS PIANISTS PRAISE THE  
GAZETTE PRIZE.

Everybody Who Has Examined the Instrument at S. C. Burnham & Co's Says the Things Said in Its Favor Were Justified—Conditions of the Contest.

What is thought of the Shaw piano by pianists, vocalists and teachers. This is not hard to find out.

When The Gazette chose an instrument it picked out the best to be had. The girl who wins this instrument may well rejoice. Here are a few statements published in St. Paul papers by those who have used the Shaw:

OSCAR L. LIENAU, tenor singer and teacher of the voice writes:

ST. PAUL, MINN., AUG. 2, 1892. GENTLEMEN: I am extremely pleased with the Shaw Piano which I purchased of you. I have used it for some months and consider it a superior instrument. Its clear full tone and elastic touch is a delight not only to myself, but to my many friends, its sweet singing quality being especially noticeable, and I shall be pleased to recommend it to my pupils, etc., I am, yours respectfully, OSCAR L. LIENAU.

Frederick Leavitt, the expert piano tuner:

ST. PAUL, MINN., MAY 1, 1892. GENTLEMEN: As compared with other first class instruments, the Shaw piano has the charming characteristics of each—all in one. Not a break in the scale. No rattling in the action. Never harsh nor metallic in tone. Stays in tune. Such is my admiration for the piano that I would not trade, "even up" for any upright made. My own Shaw has not required any attention during the past year and is in almost perfect tune now. Yours respectfully, FRED. LEAVITT.

Professor William Manner, organist at the Cathedral and leader of the German Mannerchoir Singing society says:

ST. PAUL, MINN., MAY 6, 1892. I admire the Shaw Piano very much. Their construction is most excellent, the tone is round, rich and mellow, and altogether I consider them one of the very best pianos made today in this country. I can cheerfully recommend them. Respectfully yours, W. MANNER.

Those who wish to learn for themselves the quality of piano offered by the Gazette are urged to visit S. C. Burnham & Co's store. Several patterns of the Shaw are there shown. These instruments rank in the markets of the country just as Chickering's, Steinways and Knabes, the four occupying first place. Everybody who has seen the Gazette piano is enthusiastic in its praise. It has a pure ringing tone, and its action is very fine. These qualities are what would be expected of a Shaw piano and The Gazette made no mistake in choosing that instrument.

Friends of contestants show a lively interest in the success of their favorites and votes are coming in rapidly. AN OPERATOR'S STORY.

For Months He Masqueraded by Wire as a Girl.

"Yes, I have had some awful funny experiences," said a well-known telegraph operator, to a Cincinnati Enquirer reporter. "One time I talked with a girl for almost a year nearly every day, and she thought I was a girl. Yes, quite a little romance.

"I was at Erie, Pa. doing commercial work for a big firm. I was green in the business. Never learned, in fact. My father was an operator, and my brother and I kind of grew up on the rudiments, but had no actual experience.

"I worked a good deal with the 'G'—that's Pittsburgh, you know, about 140 from Erie. The operator at 'G' signed 'F. N.' and I soon learned that the operator was a girl, and as I figured it out a mighty pretty one. I signed 'C. A.' from the first time I called 'G' 'F. N.' got the idea somehow, that I was a girl operator just learning, and she went slow and helped me out.

"She used to explain things to me and repeat messages. I used to get all tangled up with cable messages, but she would help me out. I don't know what I would have done without 'F. N.' for I took the job on my gall.

"I sent her several boxes of flowers and had one of the lady clerks write letters from me to her. I directed my letters to 'F. N.' W. U. telegraph office, Pittsburgh," and she directed mine to 'C. A.' at the general office in Erie. The letters always carried. Then we used to talk girl talk over the wires. She would tell me about the balls she had been to and her new dresses, and I talked back to her in the strain.

"Well, I got to love the little 'F. N.'—I called her Fannie, though that wasn't her name—and was glad when in about a year, I had a chance to go to Pittsburgh. It was with a beating heart that I entered the Western Union office and asked the head clerk who 'F. N.' was. He pointed her out to me as she was sitting at her desk pounding away at the brass, and she was a beauty, as pretty a little brunette as I ever saw.

"I began to kind of question him a little offhand, and nearly dropped when he said, 'We're going to lose 'F. N.' before long. She is going to be married to 'U. G.' He sits over yonder."

"I looked at 'U. G.' an ugly old cuss, old enough, I thought, to be her father. I had never seen him, but I knew him by wire. He was a nasty sander—lightning from the word go. He used to call me 'Plug' because I couldn't take the messages as fast as he would sling them. I hated him and always cursed when he was on the wire, which was, thank heaven! not very often.

"Well, I looked at 'U. G.' and then at little 'F. N.' I suppose she thought she was doing well, because 'U. G.' was a crack brass pounder, but I pitied her for I knew he was a crank—and then I left the office without speaking to her, and to this day she does not know that 'C. A.' is a man. When I got back to Erie I changed my sig. to 'J. M.' and told her 'C. A.' had left and I was a man.

"One day she bade me good-by saying she was going to quit. I did not need to ask the reason, but I tell you, if I ever get that 'U. G.' in a tight place I'll make him sweat, for I can sling lightning with any of them now. Thanks to little 'F. N.' for I believe I would have given up the job and gone into some other business if it hadn't been for her."

## WELCOME WORDS TO WOMEN.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another with pain here or there, and in this way they all present to their easy-going doctor, separate diseases, for which he prescribes, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The suffering patient gets no better, but probably with reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have promptly cured the disease.

Mrs. HARRY TAPPAN, of Reynolds, Jefferson Co., Neb., writes: "For two years I was a sufferer. A part of this time had to be carried from my bed. Was racked with pain, had hysteria, was very nervous, no appetite and completely discouraged. A few bottles of Favorite Prescription effected a perfect cure." Sold by all dealers in medicines.

Hot Springs, Garland

There are 71 springs

in number with a total

discharge of 335 gallons

per minute. The well

known efficacy of the

water in the treatment

of chronic cases of the

skin, joints, and mucous

membranes is due without

doubt to their tem-

mineral constituents. The

waters are no doubt beneficial

in the cases of neuralgia

produce more favorable

results. Don't experiment

## Come and See.

Have you looked into our store lately to see how busy we are?

Don't you know we are doing the Furniture Business of Janesville.

There are several other furniture dealers in the city but they can't

meet our prices; the goods cost them more than they do us.

Common factories don't make our kind of goods. We feel sure if you come and see, no matter whether you have been the high-priced customer of the other fellow for inferior goods or not you will find we have struck the happy combination. The prices make them cheap.

15 Fine Plush Lounges \$5.45 EACH

Everything in the house has been reduced in proportion. We want you to go to every other furniture store in the city, then come to us. You need not tell us the prices quoted. When you hear ours you will know we beat them all.

# Why They Fail.

On reading the statistics on business, the fact is learned that 98 per cent of merchants fail. Why? One cause of the many failures (you need not look for more) is the Low prices in the papers and the high prices in the store. Whatever measure of success we have met is due largely to keeping faith with our patrons. When we name a price in an advertisement our patrons all know that price goes. Satisfied customers are the best advertisement a house can have.

**OUR METHODS AND OUR REWARD**--As to the former we would remark that they are ours and ours only. We buy and sell our own plans and specifications. Imitation is only form of flattery and we never flatter. Again, we never bid against ourselves. We make the price and it always goes---we don't put down here and put up there. As to our reward, verily we are having it. The people are wise enough to know their friends, and the amount of trade tells a truthful tale.

## BORT, BAILEY & COMPANY.

We will explain and we will not "wishy washy" the matter neither. Knowing that some of our competitors are trying to influence the people by offering inferior stuff in direct competition with our first class articles, we want to put our friends directly into knowledge of the fact.

**FIRST**--You want to understand the French Satine Deal. "Kecklins" French Satines have cost all this spring 20c at wholesale and every store in this country sold them at 25c. "Windsor" Satines American goods have cost all this spring 9½c and every fair merchant in the land has asked 12 1-2c for them.

Now our competitors have been advertising these Windsor satines that cost them 9 1-2c at 15c per yard and telling the people they were French goods. In order to make our promises good we have knocked the price on the "Kecklin's" goods to 12 1-2c. A friend of ours brought us 10 yards of our competitors' goods and we have got it to compare with ours; they are no more alike than darkness and daylight. We shall continue selling

### "Kecklin's" Genuine French Goods 12½c.

and when our case of "American Windsors" (our competitors French goods) arrive in a few days we shall put them at a price that will astonish them and you and everybody.

**Our White Shaker Flannel** is finer and softer and three inches wider and we beat all competitors as those punts and then sell them at 2 3-4c per yd.

**Our Dress Gingham** we will sell 10 yds to a person at 3 3-4c per yard.

**The 6 1-4 Ferris Flannels** we have been selling are finer, softer, wider and altogether better stuff are now 5 1-2c, and we have forty new pieces to show you.

We will do what we say, beat any prices made by any one. We can afford to do it because we owe no man a dollar. We buy for cash, we sell for cash and we want to "grow a little."
